

Dear

Women aged from 20 to 60 years are asked to come for a smear test.

You will be asked every 3 years.

A smear test is to check that there have been no changes to the lining of the opening of your womb (the cervix). If changes show they may develop into cancer.

These changes can be treated.

Our records show you are due to come for a smear test.

Phone the health centre to make an appointment.

Yours sincerely
